<input type="checkbox"/> EA <input type="checkbox"/> LP <input type="checkbox"/> LC <input type="checkbox"/> TC <input type="checkbox"/> HL <input type="checkbox"/> RB <input type="checkbox"/> PUL <input type="checkbox"/> LI <input type="checkbox"/> OA <input type="checkbox"/> AU (specify): EA: agricultural spreading      HL: helicopter towing      OA: aerial observation requiring special equipment LP: parachutist drops            RB: towing banners            AU: other LC: load drops                        PUL: towing micro gliders TC: transportation of loads in slings      LI: fire-fighting			
<b>User file</b>	<b>Title or reference of the user manual<sup>4</sup></b>		DISCO-FR-rev.1
	<b>Title or reference of the maintenance manual</b>		

(1) Mandatory special equipment to allow for a maximum weight greater than 300 kg (single-seater) or 350 kg (two-seater). The user manual shall state that the identification card holder is responsible for installing the equipment concerned and making sure that it complies with the regulations (in particular the additional technical conditions for an emergency parachute).

(2) If necessary, refer to detailed criteria in the user manual.

(3) Only tick the activities for which the capacity of the microlight has been verified and tested. In this case, the user manual shall specify the procedures associated with these special activities and indicate which carriages/trikes are compatible with these activities (or at least the criteria that the carriages/trikes must meet).

(4) Recommended for non series-produced single-seaters and mandatory in case of transfer.

## Signature

I hereby declare that the above information is sincere and that I have been informed that any false declarations are punishable by law.

<b>Date:</b> 14. JAN. 2022	<b>Name, surname and signature (and company stamp, where appropriate):</b> JIHUN LEE	
-------------------------------	---	--
